

Tacoma Wheelmen's Bicycle Club  
 Daffodil Classic  
 Kapowsin/Eatonville Loop  
 63 Miles

**Tips for a safer and more enjoyable ride**

- Helmets are required.
- "Share the Road" when riding. We want car drivers to perceive that we are courteous and sensitive to the fact that there are so many of us sharing the road with them.
- Be predictable, hand signals and predictable turns are good safety practices.
- Observe stop signs, traffic signals and warning signs. Stay right as much as possible; ride single file where roads are narrow.
- Observe the 10 mile per hour speed limit if you choose to use the Foothills Trail.
- There are some steep descents on both loops **please use caution.**
- Be aware of and courteous to auto drivers who move faster than you do.
- Ride like you are 100% responsible for your own safety.
- Please use the Foothills Trail Bridge to cross the Puyallup River, just north of Orting as you finish the 40 mile Buckley Loop. The course is marked that way. Even for this short section please remember the trail speed limit is 10 miles per hour.
